Winter safety tips

By Terrance Booth

The reason winter driving safety tips are important cause you can save someone life by following them. It's not all your fall if you stop and slide past the stop sign but you should try to stop ahead of time.

Hear is some of the tips you should use. Slow down on turn and stop light and don't go as fast as it says or you might cause an accident. Make shear you have good tires for the winter so you won't slip as much. Try to stop before the stop sign or light so you will stop in time.

You should watch out for anyone walking so you won't hit them for the walker you should wear bright clothes and be well padded so you keep warm. So you won't freeze to death.

Hear some safety tips for the winter. I hope you use them and keep people out of accidents.
