Bullying

A bully is someone who picks on a person just for the fun of it. That's bullying. they could be a bully because they have been picked on every day they want to take it out on someone else.

The reason why it is dangerous is because the kids get bullied, They may try to kill themselves, So that is one of the reason it is danrages. Another reason is deep depression and not being their true self. The people who are involved are the bull and the victim

Bullying happens anywhere,anytime because the bully doesn't care. The way you can prevent bullying is to tell an adult or someone you can trust

So this is why we need to stop bullying and be nice to our peers. by Terrance
