

Grade 8 Student Work

Fish Art -

This activity was used as an introduction to a high school art class. Collages, using cardboard used in our everyday lives, were created to showcase a particular species of fish. (The black and white does not do these justice).

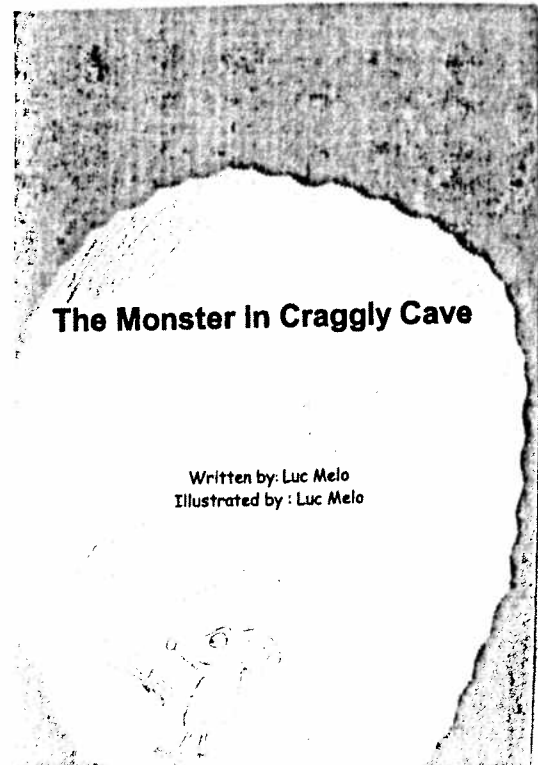

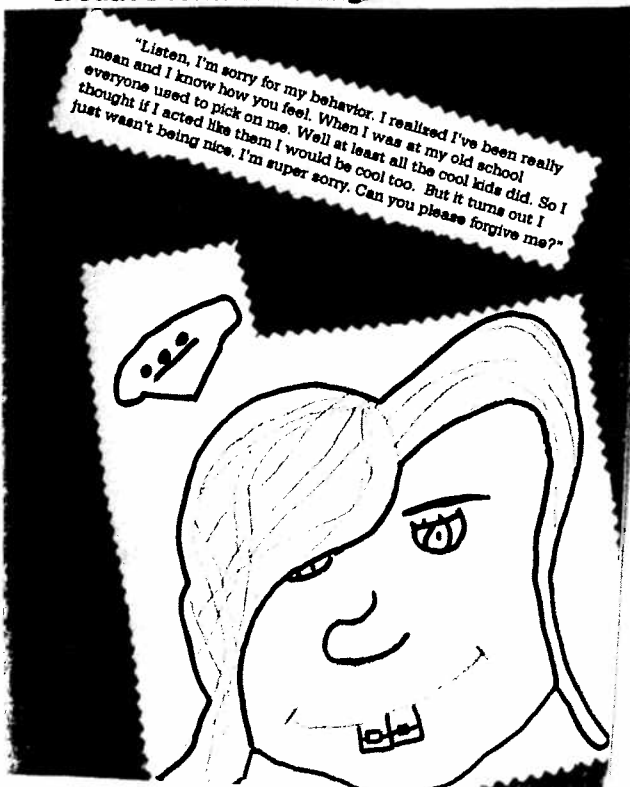

- Dan Longuepee

- Keira Lindgren

Children's Narrative -

Students created narratives aimed at an audience of children. Messages, characters and illustrations had to be carefully selected, as the students familiarized themselves with this creative form of writing.

- Megan McDonagh

- Luc Melo
