What has been going on at Sacred Heart?

With the colder weather coming, students are reminded to dress up! It is getting colder out there.

Part of the Geometry unit, students in Grade 1 are learning to find and describe shapes within other shapes. This activity involved students creating their own pictures using only two-dimensional shapes which they cut out.

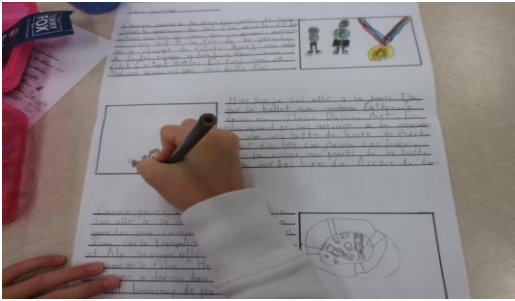

Students in the FDK program used play dough to build something special.

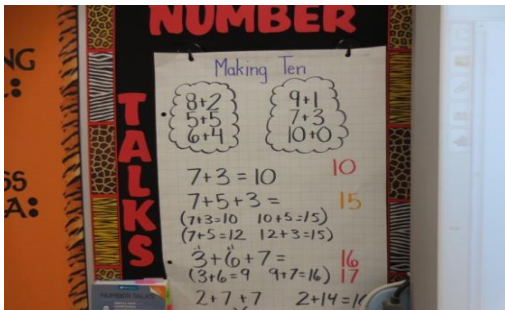

The Grade 1 students participate in Guided Reading session.

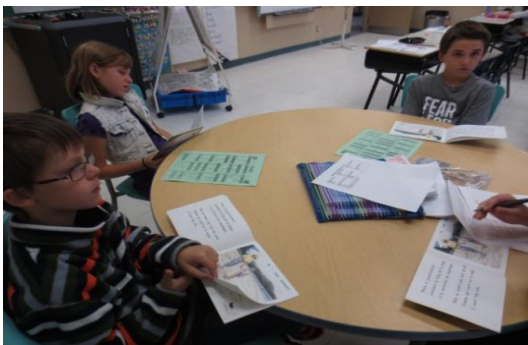

Grade 3/4 students make final touches on their 3 journal entries after receiving feedback from their classroom teacher.

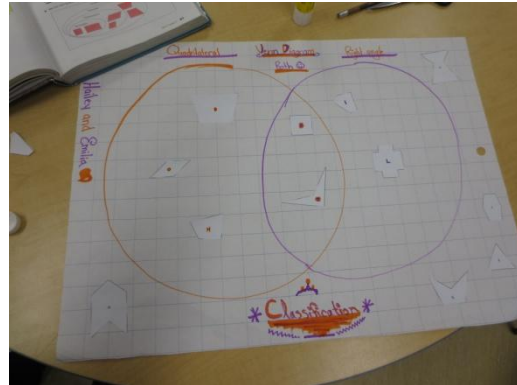

Look at the mental math strategies. Students in grades 3 are working with friendly numbers using rods and unit cubes to make units of ten.

Students in Grade 4 participate in a guided reading session.

Students in Grade 6 began their unit on Introduction to Geometry. Below students created a Venn diagram by sorting polygons by geometric properties.

Grade 6 students 'Counted Their Blessings' and created a piece of artwork to bring home for Thanksgiving.

Take a look at Mrs. Vachon's art and music classes' website. Great work everyone!
