What is going on at Sacred Heart?

Staff at Sacred Heart are working together collaboratively to enhance student learning in and out of the classroom. Below are recent examples of staff working as a school team and inviting system SAT and SWST into their rooms.

The School Improvement team recently participated in a session with Sandra Herbst at the Dante Club.

The Special Assignment Teacher (SAT) works with students and staff. Below the SAT is working with a student in math using a rekenrek while the teacher observes.

Part of the work of SWST this year is the development of creating a school community that embraces a growth mindset. A growth mindset is a core belief that abilities are malleable and not fixed and can be developed through dedication and hard work. This view creates a love of learning and a resilience that is essential for great accomplishments. Below the SWST is working with the Grade 1 class.

Change your words – Change your mindset!

A visual display is set up in the hallway to remind students that their mindset is everything.
