**PROCEDURES**

---

**1.0 GENERAL PROVISIONS**

- 1.1 The term Service Animal is used in the *Accessibility Standards for Customer Service* made under the *Accessibility for Ontarians with Disability Act (AODA)*, to describe an animal that assists an individual with a disability to be able to access goods and services available to the public. Pursuant to the *Education Act* and regulations, a school building is not a place to which the public is customarily admitted. The AODA does not apply to a student's use of a service animal when accessing education services in school buildings.

- 1.2 The NCDSB utilizes a variety of placements, differentiated programming, and evidence-based interventions and strategies to provide meaningful access to education for students who have disability-related needs that impact their learning.
- 1.3 When a school is approached with the request for a guide dog or service animal to accompany a student, the school must first determine whether the student requires this accommodation. Any determination of whether a guide dog, service animal is an appropriate educational accommodation is a decision of the NCDSB. A regulated health professional cannot unilaterally prescribe that a guide dog or service animal be a specific accommodation while the student is receiving education services at school.
- 1.4 Decisions regarding the admittance of guide dogs and service animals into the school environment are reviewed on an individual, case-by-case basis. All circumstances of a particular case, including the individual needs of the student being assisted by the service animal, and the needs of other students and staff will be considered. Where necessary, the rights and needs of one person may have to be balanced against the rights and needs of another.
- 1.5 For a guide dog or service animal to be permitted to accompany a student to school, both the guide dog/service animal **and** the student Handler must be certified as having successfully trained by an accredited training facility. Only in exceptional circumstances, subject to the standards of undue hardship pursuant *Human Rights Code*, will the NCDSB consider an application for a student who will not be acting as the primary trained Handler of the guide dog or service animal.
- 1.6 Only in exceptional circumstances, subject to the standards of undue hardship pursuant the *Human Rights Code*, will the NCDSB consider Service Animals, other than dogs, as an accommodation for a student and only if other reasonable methods of accommodation in the school setting have been unsuccessful in meeting the demonstrated disability-related learning needs of the student.
- 1.7 The NCDSB encourages any family considering the purchase of a guide dog or service animal to meet with the Principal before making a commitment or assuming that a request will be approved.
- 1.8 Due to risks of safety, and risks of disruption and distraction in the learning environment, the NCDSB does not permit training of potential guide dogs and service dogs in the school setting or during school activities.

## **2.0 ROLES AND RESPONSIBILITIES**

## **3.0 ASSESSMENT OF THE ACCOMMODATION REQUEST**

- 3.1 Once the application and all necessary documentation is received by the school principal, an initial review will take place by the NCDSB team supporting the student, including the Superintendent of Education with responsibility for the school community. Every effort will be made to complete the initial review within a reasonable timeframe.
- 3.2 The Principal will organize and facilitate a meeting to review the request for accommodation with the NCDSB team supporting the student, the parent/adult student and student (as appropriate), the health practitioner recommending the guide dog/service animal for the student, the trainer of the guide dog/service animal and of the Handler, and any other individuals who may contribute to the accommodation process.
- 3.3 Each accommodation request for a guide dog/service animal will be addressed on an individual basis, considering:
  - i) The individual learning strengths and needs of the student, the student's IEP goals, safety plan, behaviour plan and/or student's medical plan of care.

- ii) Evidence of how the guide dog/service animal's attendance at school might provide accommodation for a demonstrated disability-related learning need and/or act of daily living necessary while at school.
- iii) Assessment information provided by a regulated health professional with expertise regarding the student' disability-related needs supporting the request for a guide dog/service animal such as psychological assessments, occupational or physical therapy assessments, functional behaviour assessments, etc.

- viii) Any competing human rights of students, staff, and community members using the school pursuant to a permit.

3.4 As part of the assessment of the accommodation request, inquiries regarding competing rights and public notice to the school community may be required. These inquiries and notices shall respect the student's right to privacy regarding their disability and specific learning needs and/or needs of daily living.

3.5 It is responsibility of the parent/adult student to arrange for the guide dog/service animal to be transported or walked to school each day. This procedure does not facilitate the transportation of guide dogs/service animals on school buses, which would be addressed by policies of the transportation consortium. Specialized transportation will not be provided by the NCDSB for the purpose of enabling the guide dog/service animal to travel to and from school with the student.

3.6 Based on the completed assessment of the accommodation request, the Principal will determine whether the application for a guide dog/service animal is approved or denied. The determination will be communicated to the parent/adult student in writing.

4.1 To support the implementation of a guide dog/service animal as a learning accommodation, the Principal shall complete or coordinate the following actions, in collaboration with the school team:

  - iv) Conduct an orientation session for school staff and students, including the Handler.
  - v) Lead a student assembly for introduction and orientation regarding the guide dog/service animal.

If this behaviour occurs, the Handler will be required to remove the guide dog/service animal from the classroom immediately and the student's parent/guardian will be called to pick up the guide dog/service animal from the school.
  - iii) There has been a change in the student's circumstances or disability-related needs which had supported the original approval.

- iv) There has been a change in the needs of the other students or staff such that there is a new competing right to evaluate.
- v) The Principal, in consultation with the school team, determines that the accommodation is not effective in supporting the student's demonstrated disability-related learning needs or acts of daily living at school.
